**1. Read and answer**

Mary liked to run. When she was in third grade, she started training to run long distances. Then, when she was in eighth grade her parents agreed to let her run in the *Banana Classic*. The *Banana Classic* is a ten-kilometre race. It takes place every year in Mattydale. The winners get a lifetime supply of peanuts and fruit juice from Paul's Peanut Stand.

Mary practiced by running ten kilometres, twice per day. On the average run, she would finish in thirty minutes. The year before, the winner finished the race in twenty-six minutes and ten seconds.

On the day of the race, Mary ran faster than on any other day in her life. As she came across the last kilometre of the race, she was in fourth place. She picked up the pace and quickly reached second place, just as she could see the finish line. She was very tired and she was also hot and extremely thirsty. It didn't matter. She kept running fast towards the finish line, but she just wasn't fast enough to get ahead of the leader. Mary was very disappointed, but her parents said, "Don't worry. You can try again next year."
